Lamy – tradition meets innovation

Markets are reorganizing, technologies are evolving, and the demands of specialist retailers are geared towards current and future market requirements. In times of continuous change, a partnership is needed that not only offers stability, but also embraces and helps to shape change. Lamy has always stood for reliability and competence, but also for innovation – characteristics that make us a strong partner in the trade.

Our production site in Germany is a clear commitment to our roots. With a vertical range of manufacture of over 90 percent at our plant in Heidelberg, we ensure that our products meet the highest Made in Germany quality standards.

Lamy combines tradition and modernity: whether analog writing or digital writing instruments – we offer solutions that are perfectly tailored to the needs of users. With the successful launch of the LAMY safari note+ for the iPad in four different colours, we are sharing our expertise in ergonomics, writing comfort and design with completely new target groups. We are particularly proud of our wide range of digital writing instruments for the most important operating systems. In addition, the n-code system represents the bridge technology between the two worlds.

Our range for 2025 is as diverse as the requirements of the market. This is also reflected in our market campaigns, which offer an unprecedented range of special models. The Lamy Mediabase, which we are continually updating and expanding, ensures that you always have access to all the important materials you need to present the dynamism and diversity of the Lamy range in an eye-catching way at your point of sale.

We look forward to being your reliable partner again in the coming year. Our sales teams in the field and back office will be on hand to answer your questions, requests and suggestions in a proven and competent manner – we want to shape the future of writing together with you.

Lamy – la tradición unida a la fuerza innovadora

Los mercados se reorganizan, las tecnologías evolucionan y las exigencias del comercio especializado se orientan hacia las necesidades actuales y futuras del mercado. En tiempos de cambio continuo se requiere una cooperación que no sólo ofrezca estabilidad, sino que también acoja y ayude a dar forma al cambio. Lamy siempre ha sido sinónimo de fiabilidad y experiencia, al igual que de innovación, características que nos convierten en un fuerte socio en el sector.

Nuestra planta de producción en Alemania es un claro compromiso con nuestras raíces. Con una capacidad de fabricación de más del 90 % en nuestra planta de Heidelberg garantizamos que nuestros productos cumplen los más altos estándares de calidad Made in Germany.

Lamy combina la tradición y la modernidad: tanto si se trata de instrumentos de escritura analógicos como digitales ofrecemos soluciones perfectamente ajustadas a las necesidades de los usuarios. Con el exitoso lanzamiento del LAMY safari note+ para iPad en cuatro colores diferentes compartimos nuestra experiencia en la ergonomía y escritura cómoda, así como en el diseño con usuarios completamente nuevos. Estamos especialmente orgullosos de nuestra amplia gama de instrumentos de escritura digitales para los sistemas operativos más importantes. A la par de que el sistema n-code representa el punto de enlace tecnológico entre ambos mundos.

Nuestra gama de productos para el 2025 es tan diversa como los requisitos del mercado, lo que también se refleja en nuestras 'Market Campaigns' con una amplitud de modelos especiales sin precedentes. Con la Lamy Mediabase, que actualizamos y ampliamos continuamente, le garantizamos el acceso en todo momento a todo el material relevante con que presentar el dinamismo y la diversidad de la gama de productos Lamy de forma impactante en su punto de venta.

Esperamos volver a ser su socio de confianza el próximo año. Nuestros equipos de ventas tanto externos como internos están a su entera disposición para responder a sus preguntas, deseos y sugerencias: Queremos dar forma al futuro de la escritura con usted.
